## BANKNOTE COUNTING MACHINE.

*Next Generation Vacuum Banknote Counter for Accurate Verification of Strapped or Unstrapped Banknotes*

GLORY ACCURACY, RELIABILITY AND QUALITY, NOW AVAILABLE IN A SMALLER, FASTER PACKAGE. THE GND-710 DELIVERS HIGH PERFORMANCE AT AN AFFORDABLE COST.

In today's tough business environment, maximizing efficiencies is required to gain a competitive edge. This means choosing a business partner that provides the latest technology innovations and industry expertise, backed up by award-winning customer service.

Designed to save time by verifying strapped banknotes without having to remove the straps, the GND-710 is equally at ease in counting unstrapped notes. Four different count modes provide the flexibility to meet most demands.

By leveraging our proven technologies, the GND-710 affords greater accuracy on a broader spectrum of notes than ever before. Efficiencies are maximized by reducing labor and stoppages previously associated with counting poorer condition notes.

With a compact, contemporary design, the GND-710 saves space and fits any environment.

# GND-710

## Advantage: Glory

### Industry-leading Speed and Accuracy

The GND-710 offers high-speed counting based on Glory's reliable vacuum feed system. Selectable counting speeds, including the fastest speed in the industry of 2400 notes per minute, allows the GND-710 to easily handle any grade banknote. Adjustable count positions locate the best note position to minimize challenges other counters may have with pinholes or corner folds.

### Ease of Use

Equipped with auto-start functionality, simply set the notes in the holder to start operation. The easy-to-read LED display on the compactly designed operation panel ensures a clear view of both the grand total, up to four digits and the batch total up to 3 digits simultaneously. It also allows for quickly switching between count modes.

### Multiple Modes of Operation

With 4 different operating modes, the GND-710 can meet varying demands.

**Count Mode:** All notes placed in the holder will be counted with a running total and final tally displayed.

**Alarm Mode:** An alarm sounds and the holder automatically locks, alerting the operator of a strap count discrepancy.

**Batch Mode:** The preset batch number is easily selected on the display and counting will automatically stop when the present number is reached.

**Addition Mode:** The grand total accumulates as each new strap or loose bundle is counted.

## GND-710 TECHNICAL INFORMATION

<b>Dimensions (W x D x H)</b>	350 x 420 x 320 mm (13.7 x 16.5 x 12.5")
<b>Weight</b>	Approx. 21 kg
<b>Countable banknote size</b>	Length: 90 – 185 mm (3.5 – 7.2") Width: 60 – 97 mm (2.3 – 3.8") Thickness: 0.06 – 0.10 mm (0.002 – 0.003")
<b>Counting speed</b>	2400 pcs/min.
<b>Holder capacity</b>	Approx. 150 notes
<b>Power supply</b>	220-240V 10% 50 / 60 Hz 100-120V 10% 50 / 60 Hz
